## Regional Statistical Yearbooks

2014

### **Regional Statistical Yearbooks - Regional and municipal statistical data**

Statistics Portugal releases the Regional Statistical Yearbooks, which are the key publications regarding statistical data disseminated at regional and municipal levels, aiming to support the knowledge of regional developments and the analysis of territorial-based issues.

Most of the statistical information is available at municipal level and according to the new nomenclature NUTS 2013. For this reason, the Regional Statistical Yearbooks are an important analytical tool for local governments and a relevant basis for the knowledge of the territorial contexts of citizens' daily lives.
