## EXPLANATORY NOTES

The information reported in this press release is based on bank appraisals data taken from a survey sent to the financial institutions that provide loans for the acquisition of residential properties. The survey covers a total of seven reporting units, which represented around 90% of the total amount of new housing loans provided in Portugal. Data for the current month and the previous two months is considered in each monthly release.

The value of bank appraisals per square meter of gross floor space is represented by its median. A moving average of three months is used to compile monthly averages.

### Month-on-month growth rate

This growth rate provides the change in the average value of bank appraisals of a given month compared with the average value of the previous month expressed as a percentage.

### Year-on-year growth rate

This growth rate gives the change in the average value of a given month compared with the average value of the same month in the previous year expressed as a percentage.

More information on this statistical product can be obtained from Statistics Portugal's website (information only available in Portuguese).
