Main Aggregates of General Government 2009 – Half-finalized data

Main Aggregates of General Government

Statistics of Portugal presents the 2009 half-finalized data of the Main Aggregates of General Government transmitted to Eurostat according to the ESA95¹ transmission programme.

Data are consistent with the second Excessive Deficit Procedure (EDP) notification of 2010.

The General Government accounts are compiled according to the concepts and definitions of ESA95 and this is complemented with guidance of the Manual on Government deficit and debt² and Decisions from Eurostat. Some specific advices from Eurostat following Member States consultations are also taken into account.

In annex, it is included a table with the main aggregates of General Government for 2009, as well as the backward data beginning in 1995, totally consistent with the benchmark year 2006 of the Portuguese National Accounts.
